The examination in the common English branches will be insisted on with no less strictness than in the Ancient Languages and the Mathematics. Real equivalents will be accepted instead of the text-books named.

Candidates for the Scientific Course are required to pass examination in all the foregoing subjects, except the Greek.

Candidates for higher standing are examined as above, and also in the studies gone over by the class to which they may desire admission. For the particular books in Greek, Latin, or Modern Languages studied by each class, equivalent amounts may be offered from other books in the same language.

The stated times for the examination to begin are 8 o'clock A. M. on Wednesday of the week preceding Commencement, and the last Tuesday of the following vacation (June 21st and September 5th, 1876), and the examination in each case will continue two days. But in special cases, candidates may be examined and admitted at other times in the year. For such private examination, application must previously be made in writing. No admission to the Senior Class, however, is allowed later than the beginning of the second term.

Those who apply for examination on the days above named, are required to present themselves punctually at the appointed hour, at Walker Hall.

Before examination, the candidate must exhibit satisfactory testimonials that he sustains a good moral character. If he has been a member of any other College, he will be expected to present a certificate of regular dismission.

No one can be admitted to the Freshman Class until he has completed his fifteenth year; and no one to an advanced standing without a corresponding increase of age.

EXPENSES.
